### Our School Magazine – A Window to your World

Dear students,

Have you ever wondered what makes our school so special? It's not just the classrooms or playgrounds; it's also the amazing things we do! Our school magazine is a great way to showcase all of your talents and creativity.

Vidyavahini - a special publication is created by students and teachers right here at our school. Inside, you'll find a variety of exciting content, including stories, poems, drawings, articles, and other creative works contributed by our talented students.

Vidyavahini is a fantastic platform for you to showcase your talents and share your thoughts. Whether you excel at academics, arts, or sports, this is your chance to express yourself, share your talents and connect with your peers. By reading this magazine, you can learn more about our school culture, celebrate your friends' achievements and discover new interests.

Creating and reading the school magazine can help you discover hidden talents and inspire you to become better writers and artists. It's a wonderful opportunity to grow and develop your skills in a supportive environment.

We encourage you to keep all the issues of our school magazine. They are not just pages filled with words and pictures, they are memories of your time at school. Each edition captures the spirit of our community and the creativity of our students.

Yours truly,  
Ruby Saimy

# Children's Day

# Teacher's Exposure Camp

Teacher's exposure camp in Gujarat at the Statue of Unity in November 2024:

**Visit to Statue of Unity:** Teachers had the opportunity to visit the Statue of Unity, the world's tallest statue, and learn about its significance in promoting unity and India's rich cultural heritage.

**Tribal Village Tour:** The teachers explored a tribal village, gaining insights into the traditional lifestyle, culture, and customs of the tribal communities in the region.

**Educational Insights on Tribal Culture:** Through the tribal village visit, teachers learned about the indigenous art, crafts, and practices, enhancing their knowledge of local heritage.

**LED Glow Garden Visit:** The teachers visited the LED Glow Garden, experiencing its vibrant display of lights and learning about the integration of technology in creating educational and artistic installations.

**Colourful Lighting Experience:** The teachers observed the spectacular lighting of the Statue of Unity, appreciating the role of lighting in enhancing visual appeal and educating about sustainable energy use.

**Learning from the Son Fun Activity:** A fun and interactive educational activity allowed teachers to engage with practical learning, connecting theoretical knowledge with real-world applications.

**Insight into Environmental Conservation:** The teachers learned about environmental sustainability and conservation efforts associated with the Statue of Unity and its surrounding areas.

**Cultural Exchange and Networking:** The camp provided an opportunity for teachers to network, share educational experiences, and foster collaboration for future teaching initiatives.

## My School My Pride (Poem)

My school – My pride  
where we had a wonderful school ride  
we read, we write  
and make our future bright

We learn to respect  
not to neglect  
we learn to accept  
not to expect

We laugh, we cry  
we play, we study  
with our best buddy

Respect elders, obey parents  
became sincere and punctual  
is the habit we learn  
and that is why we call  
My school My pride

-Vihan Rawtale  
Std V

## My School (Short note)

The name of my school is IIT Campus school & Junior college. It is one of the best school in my city. It is an English medium school. The building of our school is very attractive, big and elegant. There are 30 classrooms, a hall, two computer labs, a large library, staff rooms and an office in our school. All the classrooms are neat, clean, airy and well lighted. There are almost 30 teachers in my school who are well educated, disciplined and punctual. We are like a family in our school. Our teachers are very kind and co-operative. They have very impressive style of teaching. Our Principal is also a kind and highly competent woman. There are almost 400+ students in our school. All the students are very hardworking and well disciplined, our school has a big playground and we play during the sports period. There is a good preparation of games and sports in my school. The atmosphere of my school is very peaceful and suitable for studies. I love my school very much.

-Vihan Rawtale  
Std V

## My School My Pride

A School, a beacon of learning and growth, is a place that holds a special place in my heart. It is more than just a building with classroom and desks, it is a vibrant community where dedicated educators, supportive staff, and fellow students come together to create an environment conducive to learning exploration, and holistic development.

The infrastructure of my school is impressive, with well classrooms, science and computer laboratories, a library and sports facilities. The classrooms are equipped with modern teaching aids and technology providing an interactive and engaging experience.

Std V

## Short Poem

Everybody has a name  
Some are different  
Some are same  
Some are short  
Some are long  
All are right  
None are wrong  
I like my name  
It's special to me it's exactly  
Who I want to be

- Shagun Suresh Yadav  
Std V

## Inventions of Great Scientists

Light bulb – Thomas Edison  
Wheel – The Sumerian people  
Airplane – Wright Brothers  
Compass – The Chinese people  
Internet – Vinton Cerf and Robert Kahn  
Refrigerator – Albert T Marshall  
Telephone – Alexander Graham Bell  
Electricity – Benjamin Franklin  
Thermometer – Galileo Galilei  
Calculator – Blaise Pascal

- Gauri Keshav Kale  
Std VII

## Imaginary line

Long ago I was at my house, in a deep sleep. I dream very scary dream, there were so many means thousands of ghosts. I couldn't count the numbers of ghosts. If I look at back there will be one and if I look forward there will be few more, then if I woke up nothing will scare me but I can't get out of this scary dream. One day I decided to sleep a long time and complete this scary dream but nothing happened. One day I was in my dream suddenly, I saw a water bucket in the dream and I took the water buckets after some time, I listened that after helping the bucket in my hand no ghost was coming near me, but I saw when I have kept the water in the bucket get decreasing then I threw the water bucket away suddenly a black boom boom boom..... then I saw the water buckets are flying around me and I saw all the ghost melting because the rain was falling heavily, then I saw a big door which means larger than the Indian gate on the door. I saw 'END' was written there and I got surprised opened the door and I reached there, while suddenly I woke up and enjoyed because I escaped from the heaven that's my wish it is done.

-Jagath Gautham  
Std V

## Hindi poem

आम लो भाई आम लो  
मीठे मीठे आम लो  
पीले पीले मीठे आम  
हरे हरे कट्टे आम  
पीले आम को स्वाद से खाओ  
हरे आम को अचार बनाओ ।

आम लो भाई आम लो  
मीठे मीठे आम लो  
पीले पीले मीठे आम  
हरे हरे कट्टे आम  
पीले आम को स्वाद से खाओ  
हरे आम को अचार बनाओ ।

-Soumya Singh  
Std VI

## याद है वो ८ वी क्लास ?

ऐसा लगता था जैसा बचपन से निकले हो  
और अब हम बड़े हो गए हो,  
अब हम समझदार हो गए है और बच्चें ना रहे  
हम वैसे बड़े तो हो गए ते  
पर उतने नहीं जितना हमे लगता ता  
थोड़ी बहुत समझदारी अब आने लगी ती  
किताबे अब और ज्यादा  
हमे सताने लगी ती  
उस ८ वी क्लास की बात सबसे अलग थे ।  
हमारे बचपन अब और सतारती हो गया ता  
दोस्तों के सात लड़ाई जागड़ा क्लास टेस्ट में चीटिंग  
स्कूल असेंबली मिस करना और  
एक दूसरे के लंच बॉक्सेस खाली करना ।  
इसी क्लास से हमने शुरू किया ता  
कभी दोस्तों के बैग बेंच से बांध देते ते  
कभी चाक और डस्टर के लिए  
क्लास वालों से लड़ते ते ।  
होम वर्क स्कूल में करना 1st क्लास से  
शुरू किया ता काफी बचपन में  
और ढेर सारी मस्ती मैं  
हमने उन लम्हो को जिया ता ।  
क्योंकि मुझे लगता है इस क्लास  
में न ज्यादा पढ़ाई का स्ट्रेस रहता  
ना किसी चीज का हम जी भर के  
ज़िन्दगी जी पातें है ।

-Tejal Ghadi  
Std VIII

### Who was there? (short story)

One day, at night me and my father were coming back home from Kalyan junction. It was 1:30am at night. When we reached to our destination, I went to the wash room. In the wash room, the lights of the wash room were blinking. Suddenly, the lights went off. I ignored it because it was rainy season and the shutdown familiar. But when I went outside the wash room there was an unknown place where winds were blowing faster. Suddenly, I saw someone standing near me. He waves a black coat and a cap, on his head. His face was covered with a mask. I went inside the wash room and came outside. There were no changes. As soon as he turned back towards me. Something happened to me and there was all dark. After sometime, my eyes slowly opened and I saw my father. He asked me "what happened to you?", "you were fainted". I was shocked. How does it happen?, when it happened? and who was the person?, who had wore a black coat?. Today, I'm fine but now also this question keeps running in my mind that, "who was that person?"

- Ananya D. Pandey  
Std VII

## Ill effects of pollution

There are three 3 types of pollution. They are air pollution, water pollution and earth pollution. First, we will go with air pollution.

**Air pollution:**

Air pollution is very harmful for people. But people do not understand the value of oxygen. Just try to imagine, if people will make oxygen bad, increase carbon dioxide then we will not be to survive without oxygen. People cut trees to make furniture. Trees gives us oxygen and when trees will be not be there. There will be no oxygen and people will die continuously till all are not over. Don't make air pollution, if you want to live.

**Water pollution:**

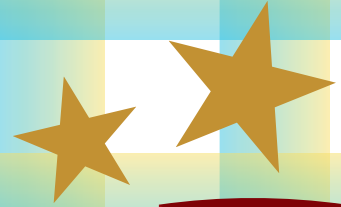

Everyone says that "Save water, Save life", but nobody does. Not everyone, but most of the people say everything about save water, save life but, most of them don't do it themselves. Water is one of our basic needs. Some people say that "Why to save water? Because, it will not go anywhere from the earth, it will only remain on earth." Yes, water will not go anywhere from the earth. But water gets spoilt. About 71% of earth's surface is water covered and the ocean holds about 96.5%, which we cannot drink. Just 3.5% of the water on the earth is fresh water we can drink and most of that fresh water, 99% is trapped in ice and glaciers. So that means that only 1% of the earth's fresh water accessible. People throw plastic bags, garbage in water. Thus, the water gets polluted. Day by day, the 1% fresh water is getting polluted, reducing fresh water. So, don't pollute water, because so less water is present on earth to drink.

**Earth pollution:**

Earth pollution is the most dangerous pollution that we are doing. Because, a person can survive sometime without water, but, if earth is only not there, so we have not a single place to just stand, we are making buildings, factories, more houses, etc. for our need. But we don't think about our mother earth. She suffers pain. Natural resources are needed to make all these buildings, factories, etc. We are doing air pollution, water pollution, noise pollution, soil pollution. Who suffers this all? Who else our mother earth. Natural resources are limited. Once, they are gone, then we, our future generations and all people will have many problems. We are taking garbage, throwing anywhere. The biggest two obstacles which come in the way to save earth are people who throw garbage anywhere and one time use plastic. If one time use plastic is the worst thing in the world. Because, as it's name is one time plastic. IT can never be destroyed by environment, it will always remain in our environment. And most important thing, wet waste, dry waste. People mix both wet and dry waste which is harmful for our environment. If they both will be in different place, then some can go for processing and some for recycling and overpopulation, the population on the earth is literally more than 8 billion people. So, we have to save our "Mother Earth".
